

# Homework 1

Quickly read *Rise of Relational Databases*.

Read Database Design and Implementation (DDI) Preface and Chapter 1.  
Take notes on the chapter. All quizzes are open-note.

Choose one of the Exercise questions at the end of DDI Chapter 1 (Section 1.10, Exercises) and post the question and your answer on Piazza. By “one question” I mean, for example, 1.1b or 1.2 or 1.7c. Or, respond meaningfully to a fellow student’s answer such that you enhance, clarify or disagree what he or she has written.
